

Ashish Khatri — Backend & Full-Stack Software Engineer

ashishkhatri006@gmail.com — +91 7404424638 — Chitkara University, Patiala

GitHub: github.com/Ashish001123 — LinkedIn: linkedin.com/in/ashish-khatri-813610295

Professional Summary

Backend-focused Software Engineering student with hands-on experience building scalable MERN applications handling **500+ daily API requests**. Strong expertise in **Node.js, Express.js, MongoDB optimization, JWT-based security, and real-time systems**. Solid foundation in **Data Structures, OOP, and backend system design**, with production-ready deployment experience.

Education

Bachelor of Engineering in Computer Science | Chitkara University, Patiala

2023–2027

Technical Skills

Languages: Java, JavaScript

Backend Development: Node.js, Express.js, REST APIs, JWT Authentication, MVC Architecture

Frontend Development: React.js, HTML, CSS

Databases: MongoDB, MySQL, SQL, Indexing, Aggregation Pipelines

Tools & Platforms: Git, GitHub, Postman, VS Code

Core CS: Data Structures & Algorithms, OOP, Complexity Analysis

Methodologies: Agile, Scrum

Backend Engineering Projects

E-Commerce Full Stack Application — Node.js, Express.js, React.js, MongoDB

GitHub: github.com/Ashish001123/Ecommerce Live: ecommerce-4-g22q.onrender.com

- Developed a full-stack e-commerce platform for **100+ users** with secure JWT authentication, role-based access control, and complete order workflows.
- Built REST APIs handling **500+ requests/day**; optimized MongoDB indexing to reduce latency by **25%**.

Real-Time Chat Application — Node.js, Express.js, Socket.io, MongoDB

GitHub: github.com/Ashish001123/FullStack-Chat-App Live: fullstack-chat-app-32t0.onrender.com

- Built a real-time chat system supporting **1,000+ concurrent messages** with sub-second delivery using Socket.io and MongoDB.
- Implemented JWT authentication and optimized database queries via compound indexing and aggregation, reducing latency by **30%**.

Social Media Platform — Node.js, Express.js, React.js, MongoDB

GitHub: github.com/Ashish001123/social-media Live: social-media-2-246a.onrender.com

- Developing a scalable social media platform with posts, likes, comments, and follow features using Node.js, React, and MongoDB.
- Designed paginated, indexed REST APIs improving feed load performance by **35%** while ensuring secure, clean backend architecture.

AI Agent Chat Application — Python, Streamlit, OpenAI Agents SDK

GitHub: github.com/Ashish001123/AI-Agent

- Developed an AI-powered conversational agent using Python and OpenAI Agents SDK with Streamlit UI for interactive querying.
- Implemented async agent orchestration and prompt handling, enabling real-time responses and deployable web-based AI interaction.

Achievements

- Participated in multiple hackathons delivering time-bound software solutions.(Bharat-Tech , SIH)
- Selected for a **6-month academic exposure program** at Technische Universität Chemnitz, Germany.
