

Leeza

Full-Stack / Backend Developer

leezamalik789@gmail.com — +91 7017300460 — Chitkara University, Patiala

LinkedIn: [linkedin.com/in/leeza-9bb0aa28b](https://www.linkedin.com/in/leeza-9bb0aa28b) — GitHub: github.com/leeza701

Professional Summary

Computer Science Engineering undergraduate skilled in **Data Structures, OOP, and Backend Development**. Experienced in building **MERN full-stack applications**, developing **REST APIs**, and implementing **JWT authentication**. Focused on **performance optimization, scalability, and clean architecture**.

Projects

E-Commerce Full Stack Application — MERN Stack

GitHub: github.com/leeza701/Ecommerce Live: [Live Demo](#)

- Built full-stack e-commerce platform with authentication, product listings, and cart management.
- Developed RESTful APIs using **Node.js, Express.js**, and **MongoDB**.
- Optimized backend queries, improving API performance by **30%**.

Real-Time Chat Application

GitHub: [ChatApp-chatty](#)

- Developed a full-stack real-time messaging application using **Node.js, Socket.io**, and **MongoDB**.
- Enabled low-latency communication through **WebSockets** for instant message delivery.
- Integrated an **AI Assistant** powered by the **OpenAI API** for intelligent conversational responses.
- Designed a hybrid backend architecture by connecting **Express.js** and **FastAPI** to manage AI interactions.
- Built a responsive frontend using **React** with **Zustand** for real-time state management.

Social Media Platform — MERN Stack

GitHub: github.com/leeza701/social-media Live: [Live Demo](#)

- Developing a scalable social media platform with posts, likes, comments, and follow features using Node.js, React, and MongoDB.
- Designed paginated, indexed REST APIs improving feed load performance by **35%** while ensuring secure, clean backend architecture.

AI Agent Chat Application — Streamlit, Python

GitHub: github.com/leeza701/AI-Agent

- Built **Streamlit-based** AI chat app with async prompt handling and dotenv configuration.

Education

Chitkara University, Patiala

2023 – 2027

Bachelor of Engineering in Computer Science and Engineering

Technical Skills

Languages: Java, JavaScript

Backend Development: Node.js, Express.js, REST APIs, JWT, MVC

Frontend Development: React.js, HTML, CSS

Databases: MySQL, MongoDB, SQL, Indexing, Aggregation Pipelines

Tools: Git, GitHub, Postman, VS Code

Methodologies: Agile, Scrum

Achievements

- Led a 3-member university project team.
- Active contributor to multiple GitHub repositories.
